

OwaPre is a solution built in a sea container for pre-treatment before the actual water treatment process. Automated valves separate large particles directly for further processing, ensuring processes' operational reliability.

Step filters allow the pretreatment unit to separate larger particles straight to the sludge drying unit. This ensures better operational reliability when treating streams rich in solids, like in the food industry.

Examples by industries:

- ✓ **Food and beverage industry** - wastewaters
- ✓ **Waste management** - open pool waters

BASIC INFORMATION

SIZE / TYPE OF CONTAINER

Sea Container

Length: 20 feet 6 060 mm

Width: 2 440 mm

Height: 2 700 mm

OPERATION MASS

22 000 kg

FLOW CAPACITY

5 - 200 m³/h

- ✓ **Product group** Pretreatment
- ✓ **Product type** Step filter unit
- ✓ **Series** 3112-
- ✓ **Transportation weight** 5 500 kg
- ✓ **Manufactured by** Owatec Group Oy
- ✓ **Made in** Finland

TECHNICAL INFORMATION

✓ **Step filter** TAM Step Filter V4-800-3

✓ **+ Sludge pump**

✓ **Inlet connection** DN65

✓ **Outlet connection** DN80

OTHER INFORMATION

✓ **pH of the treated water** 4 - 10

✓ **Temp of the treated water** 5 - 50 °C

✓ **Ambient temp** 4 seasons
